

I grew up in Southern Ontario upon the lakes, rivers and streams with fishing and freedom on my mind.

Graduated from Sir Sandford Flemming College in 1998 with a Degree in Drilling and Blasting. I moved to Southeast Asia in 2000 and went to work for the Taiwanese Airforce as the Head English Instructor.

In 2005/2006, with a desire in empowerment and chemistry, myself and another, put together Canada's largest privately held biofuels manufacturer in Stoney Creek Ontario. Again with a desire in natural chemistry, myself and Chief Eugene Fox founded Blackfeet Health Products in 2018 where I became head formulator working with 35 natural herbs, 7 medicinal fungi and 12 different minerals where we formulated various food-based medicines and focused on natural and cultural traditional recipes and formulations.

I am currently working on putting together a Private Membership Associations for national and local community initiatives and empowerment.

I despise the tyrannical government and have a focus on common and natural law!!
