

## MY WHY

**As a new lash artist, I spent so much of my time researching to fill the gaps in my own education and trying to find a community of supportive professionals. There was no one place I could go for all of the training, support and products I needed until I came across M.INT Lashes.**

**When I began as a Brand Ambassador, I was part of a community of women working in the beauty industry who wanted to help and uplift each other, the training was comprehensive and the products were unmatched to anything I used before.**

**Providing students with guidance and knowledge they need to succeed from the beginning and building a community that values community over competition is the driving force behind why I love what I do and I am so proud to be part of a team that continues to grow and innovate in the industry.**
